MISSION STATEMENT

The mission of St. Peter Catholic School is to develop the potential of each individual, both academically and spiritually, through a variety of intellectual, creative and social challenges.

Our aim is to empower our students to prosper and contribute as responsible Christians in an increasingly complex society.

We believe that we should provide children with the opportunity to be educated as persons worthy of appreciation for their own capabilities, and that they are responsible to develop their gifts and talents.

Our main focus is to educate our children according to Christian principles. They are taught to look beyond the barriers of economics, racial and ethnic differences in order to understand and appreciate the common needs of others.
